

Coils

EC/EU/EH/EM

The perfect match for
year-round comfort
and efficiency.

Combining performance and efficiency for optimal comfort.

Coils

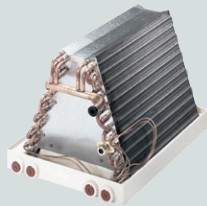

When you add a matching evaporator coil to your system, you get complete home comfort, peak performance and maximized efficiency. The evaporator coil is an essential piece of the system, helping keep temperature and humidity levels properly balanced and perfectly comfortable day after day.

- Indoor evaporator coil models - EC/EU/EH/EM
- 10-year limited warranty - parts*

Proper heat management keeps you comfortable.

The job of the evaporator coil is to **cool the air and remove the humidity**. How the job is performed affects the performance of your comfort system. With a properly sized evaporator coil, your system operates more efficiently and **you spend less money on utility bills.**** But the job doesn't end there. By **reducing humidity**, the evaporator coil helps create a comfortable and healthy indoor environment – and your **system works at peak performance**.

Quality and durability you can depend on.

Armstrong Air™ evaporator coils are equipped with **quality components** that are **built to last longer for maximum performance** season after season. Our drain pans are designed with a heat-resistant polymer that **will not rust or corrode and is suitable for today's high tech ultraviolet coil cleaning lights**. Drain pans are also treated with Microban® antimicrobial protection, an additive that **inhibits the growth of odor-causing mold, mildew and bacteria**. For easier servicing and cleaning, all cased coil cabinets are lined with foil faced insulation.

Product variety gives you the perfect fit.

With a **variety of configurations** and capacities, it's easy to find an Armstrong Air evaporator coil to match your home comfort system perfectly. Coils are available for use with **R-22 refrigerant** or the new **ozone-friendly R410a refrigerant**. Simply ask your Armstrong Air dealer which evaporator coil model is right for you.

** Warranty provides for a total of 10 years of limited warranty coverage (Standard 5-year limited parts warranty plus an additional 5-year limited extended parts warranty). Warranty must be registered online within 60 days of installation to qualify for 10-year coverage. Unregistered equipment defaults to 5-year coverage. See full warranty at www.alliedair.com for terms, conditions and exclusions.*

*** Potential savings may vary depending on personal lifestyle, system settings, equipment maintenance, local climate, actual construction, and installation of equipment and duct system.*
