COOLING PRODUCTS

TRUST US FOR TOTAL COMFORT

The Fraser-Johnston® family of split system air conditioners is designed to deliver the best efficiency, the quietest operation and the easiest serviceability. Our cooling solutions offer up to 18 SEER energy efficiency. And with advanced sound-dampening technology and reliable compressors, our cooling products are far quieter and more efficient than standard models. Plus, you can count on Fraser-Johnston® to provide the fans, filters and advanced controls to complete your system.

Split System Air Conditioners

Reliable Fraser-Johnston® air conditioners fit your needs with high-efficiency models that reduce your utility bills. Stay comfortable in any climate with models that offer maximum efficiency, innovative design and unbeatable warranty protection.

Right here in America

Exceeding customer expectations requires continual advances and attention to detail. Building your Fraser-Johnston® unit in America ensures that we can closely monitor and improve processes that directly affect quality. The performance and reliability of your unit is the result of strict tolerances and rigorous testing that continues throughout the entire process. It's also the result of dedication and hard work. It takes more than just metal and circuitry to make a Fraser-Johnston® unit. It takes people of integrity from right here in the heart of America.
