High-Efficiency Gas Furnaces

Warm and peaceful environments
from the efficiency experts.

Wrap your family in
comfort.

91
tech

Nothing makes a house a home like soothing, even warmth. That's why Armstrong Air engineers put so much thought into the energy-efficient Tech 91 gas furnace line. We packed it with family-friendly features for years of safe, trouble-free comfort. From cool summer nights to frigid winter days, your family deserves our very best.

- Up to 91.0% efficient – ENERGY STAR® qualified
- Lifetime limited warranty – heat exchanger*
- 10-year limited warranty – parts**

Lower utility bills. Long-term benefits.

The Tech 91 furnace line has an impressive **AFUE rating up to 91.0**—meeting strict energy-efficiency criteria required for **ENERGY STAR qualification**. And that means less energy is needed to maintain the comfort of your home when compared to older, less-efficient furnaces. In the short term, **you use less energy**. And in the long term, **the energy savings** can exceed what you paid for the Tech 91. Now that's a smart investment!

Warm and reliable comfort—season after season.

We have engineered the Tech 91 line to help ensure that your home is warm and comfortable. We incorporate **quality components** made with **robust materials** like **stainless steel in our primary and secondary heat exchangers** to help resist corrosion and maintain long-lasting performance. This means you can rely on the Tech 91 line for **consistent, even comfort**. Our dependability and impressive warranties will guarantee you the confidence and peace of mind you deserve.

Quiet operation so you won't hear a peep.

With features like a fully insulated cabinet and blower compartment and a sound-reducing burner enclosure, the Tech 91 line is designed to operate quietly—during every stage. It's just another element that adds to your ultimate comfort.

Easy to maintain and service.

We've added the innovative monitoring control system to help your service technician work quickly and effectively. Regular servicing is always recommended to help ensure your product operates at peak performance.

**Lifetime limited heat exchanger warranty applies to registered product only (standard 20-year with no online registration). See full warranty at www.alliedair.com for terms, conditions and exclusions.*

***Warranty provides for a total of 10 years of limited warranty coverage (standard 5-year limited parts warranty, plus an additional 5-year limited extended parts warranty). Warranty must be registered online within 60 days of installation to qualify for 10-year coverage. Unregistered equipment defaults to 5-year coverage. See full warranty at www.alliedair.com for terms, conditions and exclusions.*

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners must be matched with appropriate coil components to meet ENERGY STAR criteria. Ask your contractor for details or visit www.energystar.gov.
