

Armstrong Air™ High-Efficiency Gas Furnaces

advantage II

Quietly efficient,
warm and
comfortable.

Wrap your family in
comfort.

93 advantage II

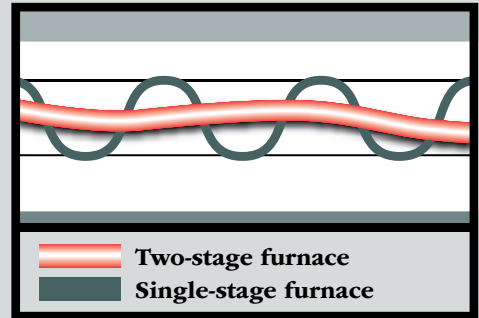

Nothing makes a house a home like clean, soothing warmth. That's why we put so much thought into the energy-efficient Advantage II 93 gas furnace line. We packed it with safe, family-friendly features for years of healthy, trouble-free comfort. From cool summer nights to frigid winter days, your family deserves our very best in home comfort.

- Up to 93.0% efficient – ENERGY STAR® qualified
- Lifetime limited warranty – heat exchanger*
- 10-year limited warranty – parts**

It's so efficient, it can pay for itself in fuel savings.†

Each Advantage II 93 is very affordably priced, but that's just the tip of the savings story. By converting more of your fuel to heat, it efficiently shortens your payback time. That means the money you save on fuel can pay for your furnace in just a few years.

Home Comfort

During milder weather, our **two-stage** furnace can more closely match your home's comfort needs. When properly sized, it can run on "low heat" 75–80% of the time, allowing the furnace to cycle less often, which creates less temperature swing, providing a more even and comfortable environment. When outdoor temperatures drop, your furnace will easily meet the demand by running at a full 100% capacity, keeping your family warm and comfortable. In humid climates the furnace will work in conjunction with the cooling system, not only to improve the cooling system's efficiency, but also to improve the cooling system's ability to control moisture.

Reliability

The System Sentry™ monitoring device helps assure safe, reliable and efficient operation by constantly monitoring and controlling the furnace.

The time-tested Ultra 409 Stainless Steel primary heat exchanger with a lifetime limited warranty* will provide years of reliable, trouble-free service.

Quiet Operation

The unique design of the Advantage II 93 furnace provides two layers of steel between where combustion occurs and your living space, reducing sound levels significantly.

†Potential savings may vary depending on personal lifestyle, system settings, equipment maintenance, local climate, actual construction and installation of equipment and duct system.

*Lifetime limited heat exchanger warranty applies to registered product only (standard 20-year with no online registration). See full warranty at www.alliedair.com for terms, conditions and exclusions.

**Warranty provides for a total of 10 years of limited warranty coverage (standard 5-year limited parts warranty, plus an additional 5-year limited extended parts warranty). Warranty must be registered online within 60 days of installation to qualify for 10-year coverage. Unregistered equipment defaults to 5-year coverage. See full warranty at www.alliedair.com for terms, conditions and exclusions.
