

LOOKING FOR THE MOST EFFICIENT GAS FIRED UNIT HEATER LINE IN NORTH AMERICA? THE CHOICE IS OBVIOUS... THE EFFINITY⁹³ FROM MODINE.

As contractors continue to learn about high efficiency gas fired unit heaters, they want to know which product line is the best. Modine has made that answer easy for them. The Effinity⁹³ is the most efficient, condensing gas fired unit heater line in North America with six sizes available — from 135,000 to 310,000 btu/hr — all operating at 93% minimum efficiency. See how the Effinity⁹³ stacks up to other high efficiency unit heaters on the market today.

Factors To Consider When Selecting A High Efficiency Unit Heater:	Effinity ⁹³	Competition	
Most Efficient		NO	Only with the Effinity ⁹³ will you find 93% minimum efficiency on every model size.
Most High Efficiency Models Available		NO	More model sizes (six vs. four) ensures finding the right heating solution to fit your needs. And with more sizes available in 2011, the difference is only growing!
Secondary Heat Exchanger Featuring Conservicore™ Technology		NO	Unlike aluminum, Modine's proven, high-grade stainless steel Conservicore™ secondary heat exchanger was specifically designed to withstand acidic condensate, expanding the life of your customer's investment and reducing future service calls.
Contractor Convenience Package		NO	Only the Effinity ⁹³ has this feature, and it's standard on all models! Easier connectivity and troubleshooting are at your fingertips.
Smaller Box Size and Weight		NO	Versus comparable model sizes, the Effinity ⁹³ is 40-60% smaller and 20-35% lighter, making installation quicker and easier.
Most CFM		NO	The Effinity ⁹³ has greater airflow and installation height variance thanks to higher CFM.
Condensate Drain Overflow Switch		NO	For peace of mind, the condensate overflow switch shuts off the unit in the case of a plugged condensate drain.
Greater Decrease in CO ₂ Emissions		NO	Having greater efficiency not only means gas and energy savings, it means less greenhouse gas emissions.
Comprehensive Energy Savings Calculator Sales Tool		NO	Modine's Energy Savings Calculator is a powerful, free tool that shows end users throughout North America how quick their payback and ROI will be by selecting the Effinity ⁹³ versus other less efficient unit heaters.
